

It's Bank Day!

Fun Role-Playing to Learn About Banking

Today, we're going to play a game where we pretend to be at a bank. One of us will play the role of the banker, while the others will be customers. Through this game, we will learn about the functions of a bank and have fun together!

What Your Child Will Learn:

Basics of banking, how to deposit and withdraw money

The importance of saving and basic financial literacy

Supplies You'll Need:

- Printed activity sheets

What To Do:

- 1. Setup:** Print out the play money and the bank sign. Cut out the play money if necessary and set up a designated "bank" area with the sign.
- 2. Assign Roles:** One person will be the bank teller, and the others will be customers. You can switch roles after each round so everyone gets a chance to play both roles.
- 3. Depositing Money:** Have the children, acting as customers, approach the bank teller. After receiving the play money, instruct the bank teller to write down the amount deposited in the included ledger.
- 4. Withdrawing Money:** When children return to withdraw money, remind the bank teller to check the ledger. The bank teller then hands out the correct amount of play money to the customer.
- 5. Game Enhancements:**
 - ✓ **Add a Story!** Create a simple story where the customers are saving up for something special like a toy, a book, or a trip.
 - ✓ **Goal Setting:** Have customers set a savings goal. The banker can help them figure out how much they need to save each week to reach their goal.
